NEW COMMITTEE TO COORDINATE 1971 LAGO SCIENCE FAIR

To coordinate the 1971 Lago Science Fair, Lago management recently appointed six new members to the committee. The new group consists of Amred A. Britten (chairman), Juan T. Croes, Albert C. Eman, Norman I. Salas, Dr. Johannes Waasdorp, Bertrando E. de Cuba and Franklin E. Dowling. So far the new committee members have held three meetings. Following a review of the results of the 1970 fair, the group conducted initial discussions on plans for the 1971 fair. The committee met with 11 local schoolteachers last Friday to discuss plans and activities for this year. The tentative dates for the fair have been set at the end of May.

Last night, No. 8 Pipestill was put back on stream following extensive turnaround. During its three-week downtime, the new visbreaker furnace was tied in, while the old cross furnaces were dismantled.

ELDERLY MAN KILLED IN TRAFFIC ACCIDENT

Saturday night about 10, Marco Kransen was killed instantly by a car while he was crossing the highway near the Esperanze Building at Pos Chikito. The 54-year-old victim lived at Maria Maai 20, Santa Cruz. This is the second traffic fatality of the year.

TWO FILMS PRESENTED BY LAGO TONIGHT

From 6 to 6:30 tonight, Lago will present two films on Tele-Aruba. The titles are: "Going Places" and "Let Go For'ard."

PROCEDURE RECOMMENDED FOR ESTABLISHING ROAD BLOCKS

To eliminate the present situation in which roads are being closed at random without sufficient coordination between the different Departments and causing difficulties for the normal necessary refinery traffic, the following is recommended:

1. Issuance of cold work permit for any road block necessary due to regular maintenance and construction work. The work permit to be countersigned by Departments concerned and the Fire Chief.
2. All "road blocks" to be coordinated with the Fire Chief 24 hours in advance. Excluded are road blocks due to emergencies.
3. Proper traffic obstructions to be used on both ends of the blocked area.
4. Roads to be opened, if possible, whenever work is stopped (off hours).

RAINFALL REPORT

Last week, .785 inch of rainfall was recorded at the Laboratories. During a similar period last year .030 inch was registered.

JAPANESE TV CREW TO FILM ARUBA'S CARNIVAL 1971
